Parameter

Bezeichnung	Wert
Gewicht	125/135 kg
Breite	2050 mm
Höhe	1200 mm
Länge	1200 mm
Tractor Motor Power	22-26 KW
Tractor Power	30-35 HP

Beschreibung

Spraying group ideal for medium and large-sized farms. The frame is varnished and made of metal pipes. The tank consists of two parts: the main tank and hand-washing tank. Equipped with "BETA" boom, built with steel tubes and high resistant plastic resin nozzles-holder pipes, is mounted on sliding rails and adjustable at any height, single nozzle-holders are with check-valve. The filter has the possibility of self-filling from natural sources (wells, reservoirs for water accumulation, sources, etc.). The homogenization of the preparation is accomplished by a hydro-injector. The bottom hinge is realized in three points with a Ø22 / 28 mm sleeve. There is also the possibility of installing prochromic tubes, pressure regulators with multiple outputs and other equipment specified in the optional equipment.

Standard features:

Two tanks: polyethylene with filter and cover 200/300L and hand-washing tank 15L with faucet;

Total emptying system;

Varnished steel frame;

The bottom hinge is realized with a Ø22 / 28 mm sleeve;

Three ways pressure regulator "Start 06 - Tecomec - Italy";

Dal Degan DL 260 NP pump (2 diaphragms, flow 60 L / minmaximum pressure 20 bar);

Filter (50mesh=300µm) GEOLINE with self-filling possibility;

Hydraulic injector TECOMECC with nozzle Ø1,25mm;

Plastic resin nozzles GEOLINE type AZ 0.2 for working pressure 3 - 4 bar, angle resin 110°;
